Description

Crisscross Words is a tool that was created to facilitate students' acquisition of specialized vocabulary quickly. It allows you to design and create personal dictionaries from which you can generate crossword puzzles.

This new edition offers a new look and an interface that responds to all types of devices. In addition, you no longer need to download the tool to your computer. Just register an account directly on the site and work directly from your browser.

A French version of the site is also available: *Mots entrecroisés*
